

ADMINISTRATION

INTRODUCING THE NEW TOWN LOGO

This logo uses leaf shapes to reflect the outdoor lifestyle and recreation aspect that St. Paul has to offer as well as the beautiful nature that surrounds the area. The added dots above the shapes can then be interpreted as people, with the shapes being intertwined, representing a cohesive community.

The variation of colours for the 'people' shapes speaks to diversity and inclusiveness of the community. The blues and greens of the logo create a really modern and fresh look for the Town of St. Paul, while speaking to the land and lakes that surround the area.
